## Programming Languages

- Java
  - Python
  - MATLAB
  - HTML5
  - CSS3
- 

## Achievements

### Honour Roll Recipient

Bnei Akiva Schools | September 2018

### Liberal Arts Award for Excellence in English Recipient

Bnei Akiva Schools | September 2018

### Participant in Shalheveth Freier Physics Tournament

Weizmann Institute | February 2017 - March 2017

---

## Certifications

- George Brown Machining Course

## Career Objective

Hard-working engineering student with proven knowledge in computer programming, specifically in Java and Python. Looking to improve and optimize systems through Artificial Intelligence and Machine Learning.

---

## Work Experience

### Administrative Assistant

**Torah in Motion | June 2020 - August 2020**

- Digitized archived files and added content to website
- Managed company website, Facebook and Youtube pages
- Served as customer service representative

### Podcast Researcher and Developer

**University of Toronto | June 2020 - August 2020**

- Researched topic of engineering intuition
- Conducted and shadowed numerous podcast interviews

### Summer Intern

**Bnei Akiva Schools | July 2019 - August 2019**

- Collected and organized information for a school publication
  - Contacted donors for a charity event
  - Updated school's contact database
- 

## Education

### University of Toronto

**Industrial Engineering | Expected April 2023**

#### Relevant Coursework:

- Fundamentals of Computer Programming
- Fundamentals of Object Oriented Programming

### Midreshet Lindenbaum

**Gap year Jewish Studies program | August 2018 - June 2019**

---

## Extracurricular Activities

### Co-Founder

**Jewish Engineering Society | November 2020 - Present**

- Co-created University of Toronto club for Jewish engineering students
- Manage social media and website
- Plan events

### Sponsorship Officer

**University of Toronto Design League | April 2020 - Present**

- Contacted existing and prospective sponsors for design-a-thon event
- Developed price sets and sponsorship packages

### Project Manager

**Engineering Strategies and Practices | September 2019 - December 2019**

- Researched and designed solutions for a client problem
- Distributed tasks to team members
